Children's Science Exam Questions & Answers

Q: Name the four seasons.

A: *Salt, pepper, mustard and vinegar.*

Q: Explain one of the processes by which water can be made safe to drink.

A: *Flirtation makes water safe to drink because it removes large pollutants like grit, sand, dead sheep and canoeists.*

Q: How can you delay milk turning sour?

A: *Keep it in the cow.*

Q: What are steroids?

A: *Things for keeping carpets still on the stairs.*

Q: What happens to your body as you age?

A: *When you get old, so do your bowels and you get intercontinental.*

Q: What causes the tides in the oceans?

A: *The tides are a fight between the Earth and the Moon. All water tends to flow towards the moon, because there is no water on the moon, and nature hates a vacuum. I forget where the sun joins in this fight.*

Q: How are the main parts of the body categorized? (e.g., abdomen).

A: *The body is consisted into three parts -- the brainium, the borax and the abdominal cavity. The brainium contains the brain; the borax contains the heart and lungs, and the abdominal cavity contains the five bowels, A, E, I, O, and U.*

The Optimist Creed
 Promise Yourself

- To be so strong that nothing can disturb your peace of mind
- To talk health, happiness and prosperity to every person
 You meet
- To make all your friends feel that there is something in them
- To look at the sunny side of everything and make your optimism come true
- To think only the best, to work only for the best and expect only the best
- To be just as enthusiastic about the success of others as you are about your own
- To forget the mistakes of the past and press on to the greater achievements of the future
- To wear a cheerful countenance at all times and give every living creature you meet a smile
- To give so much time to the improvement of yourself that you have no time to criticize others
- To be too large for worry, too noble for anger, too strong for fear and too happy to permit the presence of trouble.
